## SUMMARY

---

Analyst with a **Master's degree in Statistics** and 1.5+ years of professional experience in analytics, data quality, validation, and structured review. Experienced in applying defined guidelines and validation criteria, identifying quality issues, documenting findings, and providing clear, precise, and actionable feedback. Strong critical-thinking and problem-solving skills, with the ability to assess information carefully, make consistent judgment-based decisions, and maintain high-quality standards across large volumes of work. Proficient in **MS Excel, Python, SQL, Power BI, PowerPoint, and Word**, with strong written and verbal communication skills. Adept at working independently in remote environments, following project requirements, collaborating effectively, and consistently delivering accurate, detail-oriented work within deadlines.

## PROFESSIONAL SKILLS

---

- **Data Evaluation:** Data Review, Validation, Quality Assurance, Error Identification, Anomaly Detection
- **Data Preparation:** Data Cleaning, Preprocessing, Standardization, Inconsistency Detection, Duplicate Identification
- **Statistical Analysis:** Descriptive & Inferential Statistics, Exploratory Data Analysis (EDA), Hypothesis Testing, t-Tests, ANOVA, Correlation Analysis, Regression Analysis, A/B Testing
- **Programming & Data Analysis:** Python, SQL (MySQL), Pandas, NumPy, SciPy, DAX, Power Query (M)
- **Data Visualization:** Power BI, Microsoft Excel, Dashboard Development, KPI Reporting, Analytical Reporting
- **Documentation & Communication:** Technical Documentation, Analytical Findings, Clear & Actionable Feedback, Written & Verbal Communication, Stakeholder Communication, Cross-functional Collaboration, Remote Collaboration
- **Tools:** Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Jupyter Notebook, GitHub, Replit
- **AI & Productivity Tools:** ChatGPT, Claude, Microsoft Copilot, Prompt Engineering, AI-Assisted Data Analysis
- **Data Privacy:** Data Privacy Awareness, Confidential Data Handling, PII Awareness, Process Compliance

## EXPERIENCE

---

### Risk Analyst @ Xceedance

Feb 2025 - Present

- Analyzed large and complex datasets to identify trends, anomalies, patterns, and data quality issues; performed data cleaning, preprocessing, and validation to resolve missing, duplicate, inconsistent, and invalid records.
- Standardized and transformed raw client data into structured, analysis-ready datasets using **advanced Excel, Python, and SQL**; applied defined guidelines and validation rules for data processing, reconciliation, quality checks, and analysis.
- Collaborated with international stakeholders to clarify requirements, resolve data discrepancies, and communicate clear analytical findings; leveraged **Microsoft Copilot and AI-assisted workflows** to streamline repetitive validation tasks and improve reporting efficiency.

## PROJECTS

---

### Uber Ride Analytics using Python, SQL, & Power BI - [Project Link](#)

- Analyzed 150K+ ride-booking records using Python, performing data cleaning, preprocessing, EDA, & statistical analysis to identify operational, customer, and booking trends.
- Developed advanced MySQL queries to examine booking performance, revenue, customer behavior, vehicle types, payment methods, locations, and cancellation patterns.
- Built an interactive 4-page Power BI dashboard using DAX, Power Query, data modeling, calculated columns, calculated tables, and KPI measures to visualize key findings and communicate actionable insights to stakeholders.

### Hospital Management System Analysis using SQL - [Project Link](#)

- Generated insights on patients, doctors, appointments, medical procedures, & hospital revenue.
- Performed relational database analysis using JOINS, subqueries, CTEs and Window functions.

### E-Commerce Sales Analysis using SQL - [Project Link](#)

- Analyzed customer behavior, product performance, sales trends, and revenue generation (month-over-month growth).
- Identified customer segments, sales growth trends, product contributions, and profitability metrics.

## ACHIEVEMENTS

---

- **Shining Star Award** from my current organization for rapidly mastering the workflow and consistently delivering results to clients with almost 100% accuracy.
- Received **appreciations from Team Lead & Manager** for hard work & consistency.
- **Secured 1<sup>st</sup> Rank** in Bachelors among all Mathematics students with 9.5 CGPA.
- **One among top 3 students** in Masters in Statistics with 9.3 CGPA.

## CERTIFICATES

---

- Excel Dashboards for Business Analytics- [Certificate Link](#)
- Excel Dynamic Dashboard Course- [Certificate Link](#)
- Essentials of Data Science Using R - Probability & Statistical Inference- [Certificate Link](#)
- Microsoft Power BI Data Analyst- [Certificate Link](#)
- Certificate of Participation in Data Science Program- [Certificate Link](#)
- Personality Value Assessment Certificate- [Certificate Link](#)
